

Holidays

£85
CAMPING

(a)

20% REDUCTION ON ALL HOLIDAYS

Find how much you save if you take the camping holiday.

£215
SKIING

(c)

£195
SELF-CATERING

(b)

Saving = 20% of £85 $\begin{array}{r} 17 \\ 5 \overline{) 85} \end{array}$
 = $\frac{1}{5}$ of £85
 = £17

£575
CRUISING

(d)

- Now find the saving on each of the other holidays.
- Susan had £80 and Errol had £96. On holiday, Susan spent 25% of her money and Errol spent 50% of his. How much did each spend?
- Kay took £20 on holiday and spent £10% of this on postcards. How much was this?

(a)

25% OFF ALL GOODS

(b)

(c)

(d)

(e)

(f)

- 4 During a holiday, one of the shops reduced all prices by 25%. Find the new price of each item. The first one is done for you.

Reduction on the watch = 25% of £56 $\begin{array}{r} 14 \\ 4 \overline{) 56} \end{array}$
 = $\frac{1}{4}$ of £56
 = £14
 New price = £56 - £14 $\begin{array}{r} 56 \\ -14 \\ \hline 42 \end{array}$
 = £42

- 5 On the last day of a holiday, the cost of the bus and boat trips were each reduced by 50%. Find the new fares for each trip.
