

# Spaceship Denon

- Turning anti-clockwise is turning to **PORT**. Turning clockwise is to **STARBOARD**. Which object will Denon be pointing to if it turns, from this position,
 

(a) $30^\circ$ to Port,	(b) $90^\circ$ to Port,	(c) $60^\circ$ to Starboard,
(d) $170^\circ$ to Starboard,	(e) $160^\circ$ to Port,	(f) $120^\circ$ to Starboard?
- What turn can Denon make to head in the direction of
 

(a) Space Trader Orion,	(b) Space Station Delta,	(c) Lifeboat L10?
-------------------------	--------------------------	-------------------
- Write an order from Denon's Captain to the Helmsman to change course to
 

(a) rescue the astronaut,	(b) pass between asteroids K12 and K41,
(c) service space beacon B5,	(d) move directly away from the meteors.

Ask your teacher what to do next.
