- The base word of **glaringly** is glare.
- Are the syllables in **ph/ysic/al** correct? Yes No
- Punctuate the sentence.
The Venus flytrap is a plant that eats bugs, flies, ants and other insects.
- Circle who is speaking. 'How can a plant catch insects to eat?' asked the girl.
- Add speech marks to show what was said.
"It has hinged leaves that close like a trap," her teacher explained.
- Circle the word that is not needed.
If an insect should accidentally touch the hairs on the leaves, the leaf will snap shut seriously.
- Circle the verb. Sweet-smelling nectar inside the leaves attracts the insects to the plant.
- Write the missing verb in its correct form. **eat**
The leaves die after about four meals are eaten.
- The underlined word is an adverb. Yes No
The trap remains open until an insect lands lightly on its leaves.
- Circle the simile.
The leaves snap shut as quick as lightning.
- Circle the preposition. The trap doesn't close up immediately so very small insects can escape.
- Insert a question word. How do digestive juices in the trap dissolve the insect's body?

MY SCORE
